

HAND EXTRUDERS

HW-610 A | HW-610 B

HW 610 A

Hand Extruder

TECHNICAL PARAMETERS

Voltage	:	220V
Frequency	:	50/60Hz
Extruding Power	:	Drive Motor 1020W
Hot air drive power	:	1600W
Hot Air Temperature	:	20-600 degree C
Heating temperature while plastic extruding	:	200-300 degree C
Welding speed	:	2-3 kg/h
Diameter of Welding Rod	:	ϕ3.0mm-3.5mm
Weight	:	5.5kg

HW-610B

Hand Extruder

TECHNICAL PARAMETERS

Voltage	:	220V
Frequency	:	50/60Hz
Extruding Power	:	Drive Motor 1020W
Hot air drive power	:	3400W
Wind Temperature	:	20-600 degree C
Heating temperature while plastic extruding	:	200-300 degree C
Welding speed	:	2-3kg/h

Dubai Distributor

Hydro Dynamic Pipe Engineering
Ras Al Khaimah United Arab Emirates
Email : global0@eim.ae
Phone:971-4-3219944
Fax: 971-4-3250002

Oman Distributor

Consolidated Union Contracting
Muscat Oman
Email : cucoman@omantel.net.om
Office :+00968 24490030
Fax : +00968 24490040

HAND EXTRUDERS

HW-600A

HW-600B

Hiweld hand extruders are easy to use and extremely durable. There are four different models with various specifications satisfying every customer's unique requirements. They are extremely light and versatile and as such are useful in various types of fabrication including: containing tanks, fume treatment towers, scrubbers, chemical hoods, aspiration systems, manholes and for joining lining and geo textiles.

HW 600 A

Hand Extruder

TECHNICAL PARAMETERS

Voltage	:	220V
Frequency	:	50/60Hz
Extruding Power	:	Drive Motor 800W
Hot air drive power	:	1600W
Hot Air Temperature	:	20-600 degree C
Heating temperature while plastic extruding	:	200-300 degree C
Welding speed	:	2kg/h
Diameter of Welding Rod	:	φ3.0mm-3.5mm
Weight	:	5.5kg

HW 600 B

Hand Extruder

TECHNICAL PARAMETERS

Voltage	:	220V
Frequency	:	50/60Hz
Extruding Power	:	Drive Motor 800W
Hot air drive power	:	3400W
Hot Air Temperature	:	20-600 degree C
Heating temperature while plastic extruding	:	200-300 degree C
Welding speed	:	2kg/h
Diameter of Welding Rod	:	φ3.0mm-3.5mm
Weight	:	5.5kg
